To Whom it may concern

Innovation Professional Services Ltd

CSM implemented the Fuel Card Optimiser scheme in April this year for all company car drivers who have the benefit of a fully expensed fuel card.

Following a change of ownership, CSM faced the challenge looking at cost saving and implementing a new car policy part of which was to outsource the management of the company car fleet, it was the new Fleet management company who suggested we meet with Innovation to look at the cost savings they could offer.

Currently it is too early to see what those savings will be but following a midyear true up we have seen that the majority of our drivers will benefit from the scheme.

Kate and the team have provided a high quality of service throughout and are always available for help and support . We have been using the online admin tool which is very user friendly and easy to navigate around.

We look forward to continuing to work with Kate and the team at Innovation and would definitely recommend them to others.

Regards
