Innovation reference

To whom it may concern

We have been working with Innovation for a year and are very pleased we decide to appoint them to help us with their fuel card optimiser solution.

We are particularly impressed with Innovation's on line mileage capture and audit system. Innovation has been very vigilant in monitoring the monthly mileage returns, checking the detailed entries and advising staff accordingly. Any staff queries are handled quickly & efficiently through their dedicated helpline team.

Our main contact is Peter Moroz, though the whole team at Innovation are always on hand to deal with queries if and when they arise.

Because the whole process has gone so smoothly from the outset we have actually needed very little face to face time with Peter but he is always at the end of the phone no matter what the query and the whole scheme has taken up far less management time than we first envisaged.

This is only our first year but we are on track to make very sizeable savings for both ourselves and the employees.

I am happy to commend Innovation to others and also wish them all the best in the Lexis awards.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "M. Lamont", is written over a light blue horizontal line.
